

Mainsaver Software Partners with EthosEnergy at Petrochemical Industry Power Plant

San Diego, CA – June 4, 2019: Beginning in 2018, Mainsaver started working with EthosEnergy to implement the Mainsaver Enterprise Asset Management system for a power plant which EthosEnergy operates and maintains in the Southern US servicing the petrochemical industry.

Mainsaver will be used for corrective work order processing, preventive maintenance and procurement. Mainsaver will also interface with ERP and Payroll systems in order to capture all costs of maintaining the assets. Mainsaver Professional Services and EthosEnergy personnel are collaborating in this project which will also convert the legacy maintenance application data.

About EthosEnergy

EthosEnergy is a leading independent service provider of rotating equipment services and solutions to the power, oil & gas and industrial markets. Globally, these services include facility operations & maintenance; design, manufacture and application of engineered components, upgrades and re-rates; repair, overhaul and optimization of gas and steam turbines, generators, transformers, pumps, compressors and other high-speed rotating equipment as well as power plant engineering and procurement and construction. www.ethosenergygroup.com

About Mainsaver

Mainsaver offers a complete Enterprise Asset Management Solution with a robust Computerized Maintenance Management System (CMMS) at its core. As one of the industry's foremost established CMMS suppliers, Mainsaver provides solid software applications, trusted consulting services, and comprehensive customer support to its clients. Our solutions are designed to provide a maximum return on investment, whether installed as a standalone application, or as an "end to end" solution interfaced to any of today's popular ERP, MRP or financial packages.
